

The technical drawing illustrates the specifications for a toilet assembly. The top view shows a bowl with a width of 480mm at the rim and a total width of 660mm at the base. The depth from the water level (W.L.) to the centerline is 140mm, and the height from the centerline to the bottom edge is 390mm. The side view provides vertical dimensions: 235mm from the water level to the flush valve handle, 575mm from the floor to the seat, and 340mm from the floor to the bowl rim. It also shows horizontal dimensions of 250mm from the wall to the bowl center and 150mm between the legs. Components are labeled as PT 1 (flush valve), FC-111P (seat post), DC-301SEAT (seat), DFC-100W (flange), and VN 100 SDR33 (pipe). A front view shows the toilet's profile with a 150mm leg spread.
